Swish Site Stewardship Policy

Swish Building Products is an environmentally responsible manufacturer that has adopted World Class Manufacturing techniques. Good stewardship of the company's facilities is a key part of ensuring that environmental best practice is followed wherever possible and that the internal and external impacts of the company's activities are minimized.

It is the company's policy to:

- Provide a safe and healthy environment for all staff and visitors.
- Operate a clean and tidy production environment promoting the efficient use of resources and high quality manufacturing.
- Safely and securely store and identify all raw materials and hazardous substances.
- Ensure that all manufacturing and office waste streams are either recycled on site or segregated and collected by specialist recycling partners.
- Ensure that any spillages are dealt with according to legal requirements.
- Prohibit the disposal of any waste on site, whether benign or hazardous.
- Minimise all external impacts around the site including emissions and traffic levels.

A handwritten signature in black ink, appearing to read "Shaun Hanrahan", written over a light blue grid background.
