Fixing procedures as per Swish Roofline Design and Specification Guide A227

### Notes :

<sup>(1)</sup> **Replacement, load bearing profiles:** Square Jumbo, Bullnose Jumbo or Ogee Jumbo.

**Refurbishment overcapping profiles:** Cappit or Cappair.

<sup>(2)</sup> Specify A4 Marine Grade stainless steel nails or screws.

<sup>(3)</sup> **Flat Boards:** Gee Pee, Gee Pee with appropriate strip ventilators, Polo (vented flat board). **Cladding as Soffit:** Tee Gee, Open V, or Polo (vented) versions of these.

<sup>(4)</sup> **Eaves Protection:** Jumbotec (without ventilator). Vented Eaves Protector C404. **Eaves Ventilators only:** C504 & C505

<sup>(5)</sup> **Boxend** detail drawings may be found on pages 22/23 of the Swish Design & Specification Guide A227. They are also printable from the Swish website in Technical Centre> Installation Guidance> Box Ends.

**Please quote Swish References in all cases.**
